1520 Caton center Dr. Suite L-M , Baltimore MD 21227 USA—info@vakkerlight.com

DESCRIPTION

It uses precious yellow travertine with a high-quality solid wood base, with a simple and modern design. Yellow travertine has a unique light transmittance and can softly emit a warm light, as if it is a liquid halo flowing from the stone, adding a sense of warmth and comfort to the interior space. The natural texture of the solid wood base and the luster of the travertine complement each other, creating a sense of harmony and natural integration. This wall lamp is not only a lighting device, but also a decorative item that can enhance the artistic atmosphere of the room, suitable for modern or traditional style home environments.
