DESCRIPTION

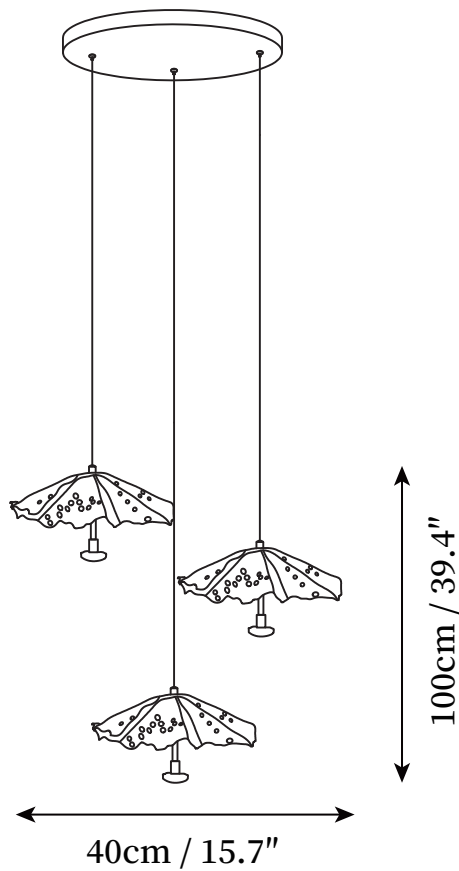

It’s okay to stop and stare at the lively, gravity-defying forms of the Lotus Leaf Chandelier. During the bright day or at night, this piece is simply impactful. The pendant hangs in the air with wires so slim they almost disappear before the eyes. One’s gaze jumps around from one feathery, handcrafted shade to the other. The textural, artisanal marks on the interior of the shade transform into beautiful highlights as the light source from the curlicue stem beams it up.

The highlight-filled shades diffuse light across its round, curved surface, translating to a soft, atmospheric glow in unison. Lotus Leaf’s collection of contemporary designs is simple and refined, with looks for every room and need. Geometric silhouettes abound, with tasteful finishes and technologically current touches that can be styled as centerpieces or functional statements in residential or commercial spaces.
