DESCRIPTION

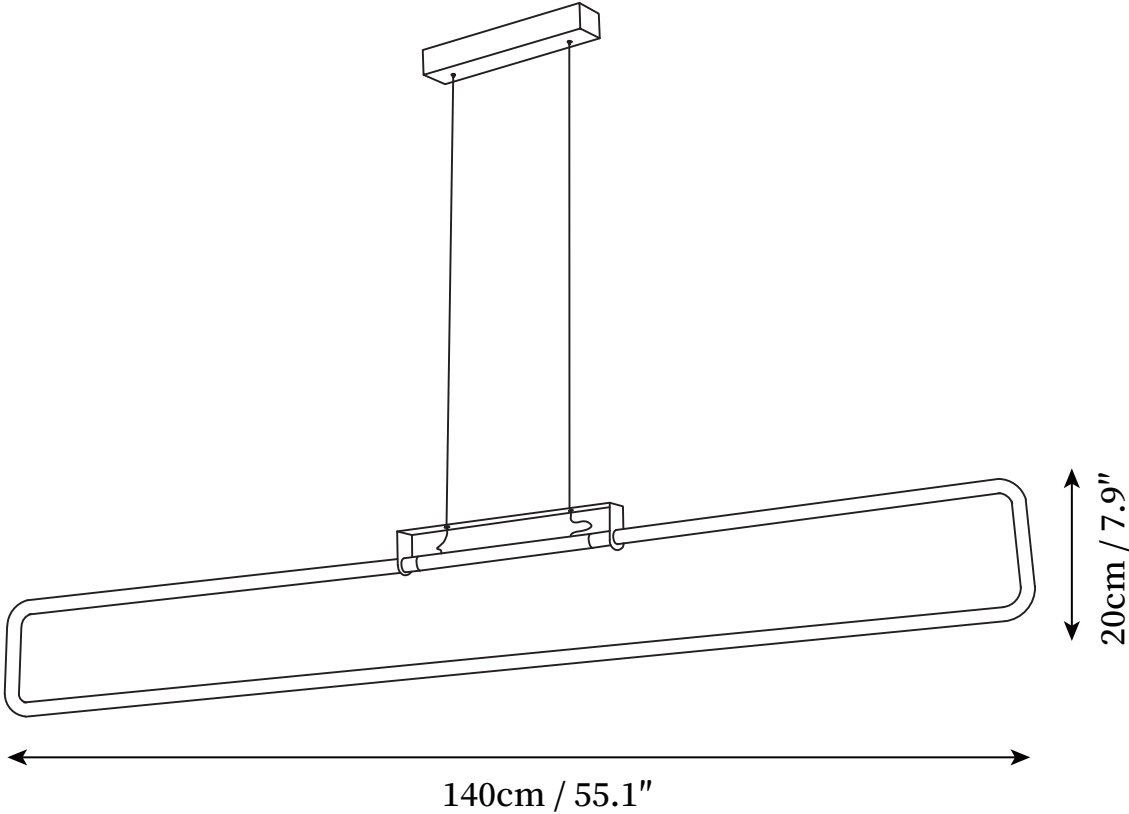

The RA Pendant lamp, with its clean and minimal lines, as well as the use of hand-curved neon, gives it unparalleled personality and presence. It takes shape like a line of light suspended in the sky, emphasizing the moment of its hypnotic halo. Mounted above a table, its warm light conjures memories of an evening around a campfire.

Neon has long evoked images of harsh, white commercial lighting or bright, colored flashy signs in the dark. RA gave neon a new use by distinctively shaping it to become the centerpiece of warm and luxurious lighting design. The glass neon tubes bent manually, contain a mixture of gas and rare minerals that produce a warm, dimmable light with surprising features. Seductive and exceptional, RA lighting emits a hypnotic luminosity and aura.
