

Chandelier

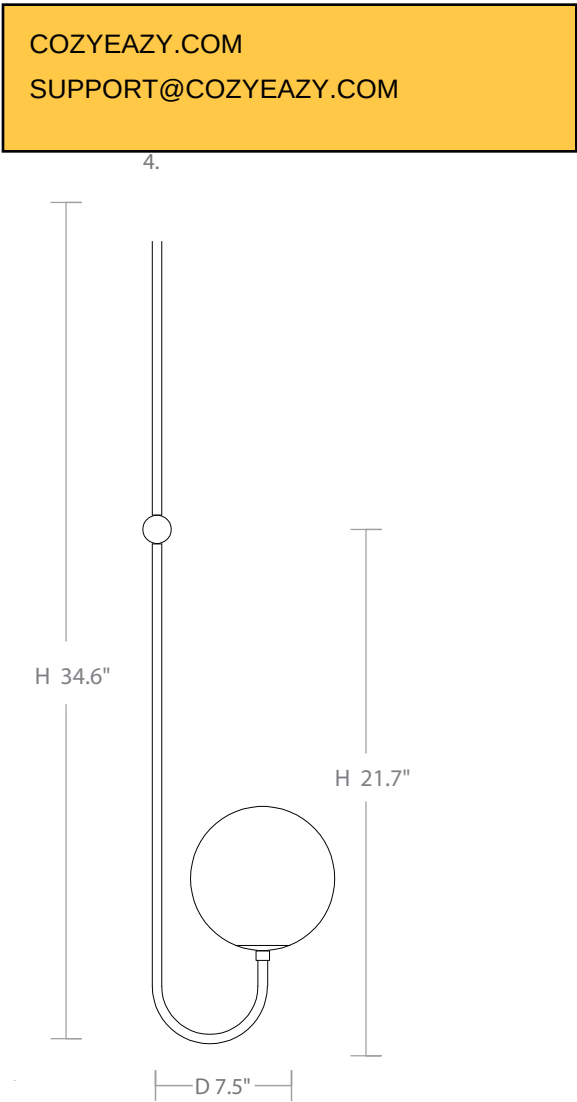

- Angle Chandelier
- MHC-

MATERIALS

- Glass
- Brass
- Metal

PRODUCT DESCRIPTION

Inspired by the shape of fishing hooks, this collection of chandelier evokes the image of a luminous sphere captured in three different configurations. Just like in angling, it consists of simply a single, double and triple hook. As often happens in his practice, designer infuses the memory of modernist design with humorous narrative and figurative qualities. He references a common, familiar object and takes it through a process of abstraction, aiming to create a pure definition of what a light source can be.
