

Akari Light

- Akari Gourd Pendant Light
- MHP-

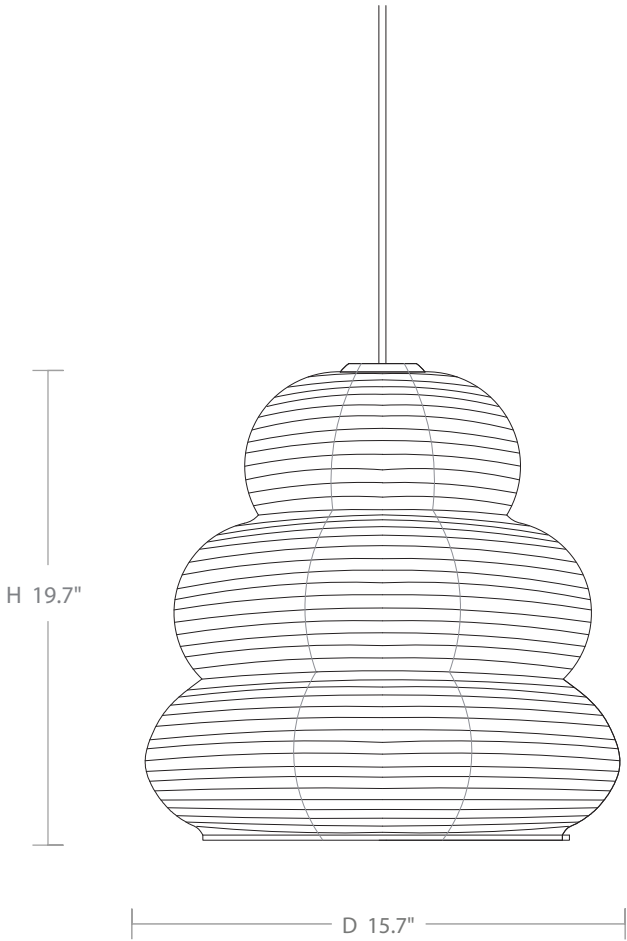

MATERIALS

- Mulberry paper
- Metal

PRODUCT DESCRIPTION

Each Akari is handcrafted beginning with the making of washi paper from the inner bark of the mulberry tree. Bamboo ribbing is stretched across sculptural molded wood forms. The washi paper is cut into strips and glued onto both sides of the framework. Once the glue has dried and the shape is set, the internal wooden form is disassembled and removed. The outcome is a resilient paper form, which can be collapsed and packed flat for shipping.
